Subject: MOFCOM Bilateral Seminars in July

Dear Sir /Madam

Thank you for your continued support for the MOFCOM bilateral seminars.

In June, there are 2 new seminars (details to be found in the attachments):

1. Overseas Training Course on Youth Employment Skills (Computers Application) in Nepal
(July 10 - Oct 7 as new dates, 50 participants, Kathmandu, Shandong Foreign Trade Vocational Collage)
2. Application of Renewable Energy
(July 24 - Aug 6, 25 participants, Lanzhou, Gansu Natural Energy Research Institute)

The seminars are tailor-made for Nepal's development priorities and will provide enriching experience, management toolkit and hands-on skills. It should be well noted that the candidates must meet the age and health requirements. The participants' expenses relevant with the seminars, such as round-trip air tickets, accommodation, and local transportation fees will be borne by China.

Please kindly notice that the above-mentioned first seminar is a training course which last 89 days and invites the organizer's tutors to host the courses in Kathmandu, Nepal for the professionals and technicians. Your recommendation letter for the above-mentioned first seminar is expected on June 26, and the second seminar on July 10, with the attached application information templates filled accordingly.

About the Organizer	<p>Shandong Foreign Trade Vocational College is the college with the longest history of foreign trade and economic vocational education in Shandong Province, which is a national quality college, Shandong quality college, Shandong characteristic famous college and Qingdao brand college. Over the past 50 years, it has trained more than 60,000 graduates and established more than 3,000 enterprises of various scales by its alumni, which have made outstanding contributions to the regional economic and social development. The college has 11,000 full-time students and more than 600 teachers. The college now offers 24 majors such as International Trade, E-Commerce and Logistics Management. The college is the director unit of the Teaching Guidance Committee for Foreign Languages Education in Vocational Colleges and Universities of the Ministry of Education of China and the vice director unit of the Teaching Guidance Committee of China's Foreign Economic and Trade Vocational Education. There are two large practical training bases in Tai'an and Qingdao West Coast, and 5 research centers such as the Research Center of Free Trade Zone and the R&D Center of Cross-border E-Commerce. The college is affiliated with the Department of Commerce of Shandong Province, and has close contact with all municipal commerce bureaus in Shandong, so that it can call on various resources in the province, and has cooperation with thousands of enterprises, and has built more than 200 off-campus practical training bases in cooperation with Hisense Group, Alibaba and other famous enterprises.</p> <p>Since 2012, the college has completed 315 China-aid training programs of the Ministry of Commerce, training a total of 10,430 participants from more than 130 countries and regions. Among them, there are 14 ministerial-level seminars, 16 overseas seminars of "Go Global" with 23 classes and 92 online seminars. Through the training, we have signed cooperation agreements with relevant institutions in more than 50 countries, such as Uganda, Uzbekistan and Dominica, and established 12 overseas training centers in Sudan, Liberia, Eritrea and other countries. Our project management and online training were commended by the Training Center of the Ministry of Commerce and promoted to national organizers in the form of briefings, and we made a typical speech in the conference at the Seminar on China Aid Training Work in China 2021. In March 2022, the "Capacity Building Program on Cross-border E-Commerce for Poverty Alleviation and Sustainable Development for Youth in Developing Countries (Online)" organized by our college trained more than 1,090 participants from 93 countries, with the support of Chinese-English, Chinese-French, Chinese-Russian, Chinese-Arabic, Chinese-Spanish simultaneous interpretation, outstanding training effects was achieved, and was highly praised by the Training Center of the Ministry of Commerce and the United Nations Office for South-South Cooperation.</p> <p>Our college has successively organized China aid training programs in information technology such as "2016 Seminar on Cloud Computing and Big Data Management Seminar for Officials from Zimbabwe", "2017 Seminar on Cloud Computing and Supercomputing for Officials from Developing Countries, and Seminar on Cloud Computing and Big Data Popularization for Officials in Cuba", and "2018 Seminar on Cloud Computing and Supercomputing for Officials from Developing Countries, Seminar on Cloud Computing and Big Data Popularization for Officials from Jamaica", "2019 Seminar on Cloud Computing and Supercomputing for Officials from Developing Countries, Seminar on Cloud Computing and Big Data Popularization for Officials from Jamaica", "2021 Seminar on Planning and Construction of Cloud Computing Data Centers in Developing Countries". Through these programs, we have gained rich training experience, received many letters of appreciation from the participants, been reported by domestic and foreign media, and achieved good training effects and social benefits.</p>	

Seminar Content	<p>This program is mainly for Nepalese youths of the appropriate age, either unemployed or currently employed, who wish to acquire computer skills or are keen to learn IT courses. The training content includes: 1. China's National Conditions; 2. Introduction to the Development of China's Information Technology and Digital China; 3. Computer Assembly and Maintenance; 4. Computer Network Set-up and Management; 5. Office Automation — Word Processing; 6. Office Automation — Electronic Spreadsheet (Excel); 7. Office Automation — PowerPoint; 8. Graphics and Image Processing and Graphic Design; 9. Popular Technologies for Computer Application — Cloud Computing; 10. Popular Technologies for Computer Application — Big Data and Artificial Intelligence; 11. Popular Technologies for Computer Application — Internet of Things; 12. Popular Technologies for Computer Application — Blockchain Technology; 13. Popular Technologies for Computer Application — 5G Technology; 14. Research on the Development and Trend of Virtual Reality Industry.</p> <p>This training course will involve a blend of lectures, seminars, and exchanges. This training course is designed to equip the participants with the requisite computing applications skills for employment and enhance their employability within a brief period. Meanwhile, the participants will gain an understanding of current development of China's information technology industry, learn from China's advanced experience in information technology, seek out potential collaboration opportunities, and foster stronger relations between China and Nepal.</p>
